 I recently purchased glass louvre windows and aluminium framed glass doors from Hi-Point Windows. These were for installation in the breezeway of an old federation home where the openings were old shapes and there was no scope for mistakes. The process of ordering the windows and doors was painless, and were ready when promised. I installed them without difficulty and they look fantastic. Thanks!

 I have used HiPoint several times in the past for windows only and always happy. This time they completed a door way entrance with windows

surrounding the door way and it goods great and valuable for money.

I would like to congratulate Hi-Point Windows on their wonderful product and service. Recently I had Nine new windows installed some with security grills and all with fly screens.

There were prompt with a quote, patient whilst waiting for our reply to that quote and more than happy to renegotiate against other quoted. They arrived the next day and perfectly measured all windows and all work was completed within the next two weeks.

I recommend Hi-Point to anyone thinking of getting new windows or doors and suggest you visit their showroom at Munibung Road Cardiff, and see the quality of the product for yourself.

Hi point windows did a wonderful job with fly screens on our larger than standard custom windows and put a screen on our front door to replace an old one. They were professional and produced excellent work. I would definely recommend them.

We required an over-sized entrance door to be designed and made, and fitted with specialty glass. The team at High-Point did a fantastic custom design, and Andrew and Wes completed a tricky construction and installation with flying colours. As issues arose during the process, they were handled and sorted in an efficient and friendly manner. Thank you Jayesh for your co-ordination and patience. Highly recommended.

Time is important when working with larger projects and at times we need to be subject to change. Jayesh and the crew at Hi-Point showed great response and fine workmanship when faced with both these situations, delivering on time and withholding quality. Well done.

"I went here after being stuffed around by others. The service took a while as their paper work is quite detailed (even for a small job) but they got my order absolutely PERFECT and the price was great. Both panels fitted first time and I have no complaints at all." - Jad

Purchased and had installed seven windows from Hi Point for our home. The reason being the vey high quality of the product. Five standard and two louvre windows. Jayesh and Kunj were especially helpful when making our selections.

The windows were installed by Andrew and his team and the quality and the standard of their work was excellent.

Everything about my dealings with Hi Point Windows was excellent. I wanted a new shower screen for my bathroom and I knew that with the shape of the existing shower recess it would not be easy. But Andrew took particular care to work out a way that I could have shower screen that I wanted.

I found Andrew punctual (came when he said he would) and took extreme care (and cleaned up behind him). I am very impressed with HiPoint Service and the product. would most definitely recommend this company

We have replaced a standard window, in our dining room, with a sliding door to gain access to the deck. Jayesh at Hi-Point replaced 10 windows for us 3.5 years ago and we were happy to use them again this time. The installer, Darrel did a great job of fitting new plasterboard, architraves & flashing. We would recommend their services to anyone considering a renovation or new installation.
